THIS IS A SAMPLE PRESENTATION

Using *typslides*

Antonio Manjavacas

https://github.com/manjavacas/typslides

Contents

This is a *Title slide*

- This is a simple `slide` with no title.
- **Bold and coloured** text by using `#stress(text)`.
- Sample link: typst.app

> This text has been written using `#framed(text)`. The background color of the box is customisable.

Frame with title

This text has been written using `#framed(title:"Frame with title")[text]`.

This is an auto-resized *focus slide.*

- This is a `#blank-slide`.

- Available **themes**[1]:

> bluey, reddy, greeny, yelly, purply, dusky, darky.

---

[1]Use them as **color** functions! e.g., `#reddy("your text")`

This is a `#grayed` text. Useful for equations.

$$P_t = \alpha - \frac{1}{\sqrt{x} + f(y)}$$

Sample references: typst, typslides.

- Add your **bibliography slide**!

1. `#let bib = bibliography("you_bibliography_file.bib")`
2. `#bibliography-slide(bib)`
